Education

Computer Programming *St. Lawrence College* Kingston ON, CA Apr 2023 – Dec 2026

Work Experience

Software Developer *Empire Life Insurance* Kingston ON, CA Aug 2025 – May 2026

- Modernized legacy Pentaho ETL workflows for annual tax slip generation (T4, T3) by converting them into containerized Spring Boot microservices using Docker.
- Automated ETL job execution through container orchestration, reducing manual effort, execution time, and operational risk.
- Migrated data pipelines and storage to Google Cloud Platform (Cloud Storage, Cloud SQL, Pub/Sub) for scalable, cloud-native processing.

Social Media and Website Coordinator *Sustainable Kingston* Kingston ON, CA Aug 2024- Apr 2025

- **Content Management:** Regularly updating and editing website content to ensure it is accurate, engaging, and aligned with our organizational goals.
- **Analytics and Reporting:** Monitoring website performance using analytics tools to track visitor behavior and generating reports to inform future improvements.

Projects

DUMPS (React, TypeScript, Vite, Tailwind CSS, FastAPI, PostgreSQL, AWS (EC2, S3), Nginx, Cloudflare)

- Built an anonymous progressive web platform for St. Lawrence College students to share feedback and ideas.
- Reached 100+ users during pre-launch through organic campus engagement.
- Designed to promote open communication and strengthen student community interaction.

SLC Indoor Navigation (FastAPI · React · BFS · Dijkstra · Graph Algorithms · AI (GPT-4))

- Built a graph-based indoor navigation system using BFS and Dijkstra's algorithms to calculate shortest paths across multi-floor college buildings with 100+ locations
- Developed Flask REST API backend with React frontend, integrating OpenAI GPT-4 for natural language location processing and visual photo-sequence route generation
- Implemented weighted graph pathfinding to optimize route selection between stairs and elevators, replacing traditional GPS/3D maps with a scalable photo-based navigation solution

Leadership

Leadership Award

- **Organizing Lead, HackSLC:** Organized the first-ever hackathon at St. Lawrence College with **40+ participants and 3+ sponsors**; featured on the official SLC website.
- **President, St. Lawrence College Toastmasters Club:** Led club operations, delivered multiple speeches, placed **3rd in the Area Speech Contest**, and mentored newly joined college students.
- **Hackathon Participant:** Participated in multiple hackathons including **QHacks** and the **Toronto Hackathon**, collaborating in fast-paced, team-based environments.

Open-Source Contributions

Numaflow *Intuit* June 2025 - Present

- Contributed to a cloud-native data processing platform by optimizing Dockerfiles, improving gRPC error handling, enhancing Python SDK functionality, and fixing technical documentation issues.
